Optional Upgrades	Price	Description	
<b>RAID Mirror Option</b>	+\$100	Protects data against HD failure. An extra 500GB hard drive is installed and mirrors the first. If a HD fails, then the second HD operates and sends an email about the failure to replace the first hard drive. (Recommended)	
<b>Win7 Professional</b>	+\$65	For use in a business environment or if you plan to remotely access your computer using Remote Desktop	
<b>Video Card</b>	+\$60	Add a video card to your Workstation or Professional for the odd game or for dual monitor display	
<b>Monitor</b>	\$125, \$200	Add a ASUS 19in LCD/LED Monitor or a 24in LCD/LED Monitor	
<b>Memory Upgrade</b>	+\$50	Add another 4GB ram to your computer if you plan to open more than 6 programs	
<b>HD Upgrade</b>	+\$60, +\$100	Upgrade to 1TB or 2TB hard drive for added space. For RAID, add \$100 plus upgrade price (\$60/\$100)	
<b>Wireless Key/Mouse</b>	+\$25	Only \$25 for wireless keyboard mouse!	
<b>Webcam</b>	+\$50	Microsoft HD Webcam	
<b>Blu-ray Optical</b>	+\$70, +\$125	Add a blu-ray reader or a blu-ray writer for playing HD movies on your computer or for burning HD movies

<b>Microsoft Office Home and Student</b>	+\$130, +\$215	For 1 License or for a 3 License pack. Includes <b>Word, Excel, Powerpoint</b>	
<b>Microsoft Office Home and Business</b>	+\$225	For 1 License. Includes <b>Word, Excel, Powerpoint, and Outlook</b>	

Any additional upgrades can always be added. Ask us for a quote!

### Benefits Of Buying a Custom Built PC

- **Quality:** Most custom-built PCs use higher-quality components than those used by companies selling pre-made PCs. The most common reason for this is that builders care more about the longevity and quality of their systems than big companies do.
- **Upgradability and Expandability:** Custom PC makes it relatively easy to upgrade or expand. The components chosen are very upgrade friendly while store bought computers are not meant for any upgrades.
- **No unnecessary software:** When you buy our custom builds, you will get a blank Windows with nothing slowing you down. A shelf PC will come with all kinds of trial versions and you might lose 50% potential speed!
- **Warranty:** Our unheard of on-site warranty with 3Yrs included beats any big box store with 1Yr store warranty + shipping costs + waiting time.
- **Price:** For the same components, the big box stores would cost even more than our price! A \$499 computer plus Extended Warranty will cost you \$600! Not to mention the accessories they want to sell you as well.

### Benefits Of Buying from Mega I.T.

- **Guarantee:** We will always be around to service your computer and uphold the warranty commitment. Lots of research goes into choosing components and they will always be the best since we offer the best warranty!
